

NYRx Preferred Diabetic Agents

What Prescribers Need to Know

Our records indicate you are prescribing non-preferred diabetic agents in one of the following diabetic drug classes. To reduce the need for prior authorization, please consider switching your NYRx (Medicaid) patients to preferred agents.

What Pharmacies Need to Know

To reduce the need for prior authorizations, please consider discussing the preferred alternatives with the provider’s office before sending a request for prior authorization.

NYRx Preferred Agents

The following table displays a quick list of preferred agents. Drugs in this program may be subject to prior authorization requirements of other pharmacy programs, notated by red superscript: **BLTG** – Brand Less Than Generic Program; **CC** – Clinical Criteria; **DO** – Dose Optimization; **F/Q/D** – Frequency Quantity Duration; **ST** – Step Therapy; **CDRP** – Clinical Drug Review Program.

This list is subject to change. For the most recent updates and specific criteria rules, see the [NYRx Preferred Drug List \(PDL\)](#).
