

# NYRx Notice to Providers: ACCRUFer®

---

September 18, 2026

ACCRUFer® has been added to the [NYRx Cost Optimization Program](#). Drugs added to the NYRx Cost Optimization Program have entered the market with **substantially higher** launch prices than equally efficacious, cost-effective alternatives. They lack additional clinical utility, while others lack clear medical necessity for those specific formulations and dosages. ACCRUFer will require a Manual Review by NYRx for consideration of coverage approval.

There are clinically- and cost-effective preferred options of the same drug available in the [NYRx Formulary File](#), many of which do not require prior authorization.
