

NYRx Preferred Drug Quick List

What Prescribers Need to Know

Prescribers should review the [NYRx Preferred Drug List \(PDL\)](#) and prescribe preferred products. The drugs listed are preferred and generally do not require prior authorization when prescribed according to FDA labeling, unless otherwise indicated.

Agents in the following [PDL](#) classes are preferred and do not have any additional clinical criteria: *Antipsychotics – Injectable*, *Hemophilia Agents – Factor VIII* (except for Altuviiiio™, which is non-preferred), *Hemophilia Agents – Factor IX*, and *Hemophilia Agents – Other*. To obtain a copy of the full preferred drug list, click [here](#).

NYRx Preferred Agents

The following table displays a quick list of preferred agents. Drugs in this program may be subject to prior authorization requirements of other pharmacy programs, notated by red superscript: **BLTG** – Brand Less Than Generic Program; **CC** – Clinical Criteria; **DO** – Dose Optimization; **F/Q/D** – Frequency Quantity Duration; **ST** – Step Therapy; **CDRP** – Clinical Drug Review Program.

This list is subject to change. For the most recent updates and specific criteria rules, see the [PDL](#).
