

APPENDIX B: ARV/NON-ARV Drug/Drug Interactions (POS Edits on PDL)

Non-ARV Interacting Drug		ARV Drug
Generic Name	Brand Name (Generic Name)*	Generic Name (Brand Name)
Fluticasone	Advair Diskus & HFA (fluticasone/salmeterol) Arnuity Ellipta (fluticasone furoate) Breo Ellipta (fluticasone/vilanterol) Dymista (azelastine/fluticasone) Flonase (fluticasone) Flovent Diskus & HFA (fluticasone) Veramyst (fluticasone)	Aptivus (tipranavir) Crixivan (indinavir) Invirase (saquinavir) Lexiva (fosamprenavir) Reyataz (atazanzavir) Viracept (nelfinavir mesylate) All products containing cobicistat All products containing darunavir All products containing ritonavir
Phenytoin Carbamazepine Phenobarbital	Dilantin (phenytoin) Tegretol (carbamazepine)	Etravirine (Intelence) Rilpivirine (Edurant) Delavirdine (Rescriptor) Fostemsavir (Rukobia) Saquinavir (Invirase) All products containing cobicistat All products containing darunavir All products containing doravirine All products containing elvitegravir All products containing raltegravir All products containing rilpivirine All products containing tenofovir alafenamide
Salmeterol	Advair Diskus & HFA (fluticasone/salmeterol) Serevent Diskus (salmeterol)	Atazanzavir (Reyataz) Fosamprenavir (Lexiva) Indinavir (Crixivan) Nelfinavir (Viracept) Saquinavir (Invirase) Tipranavir (Aptivus) All products containing cobicistat All products containing darunavir All products containing ritonavir
Alfuzosin	Uroxatrol	Atazanzavir (Reyataz) Fosamprenavir (Lexiva) Indinavir (Crixivan) Nelfinavir (Viracept) Saquinavir (Invirase) Tipranavir (Aptivus) All products containing cobicistat All products containing darunavir All products containing ritonavir
Lurasidone	Latuda	Atazanzavir (Reyataz) Indinavir (Crixivan) Nelfinavir (Viracept) Saquinavir (Invirase)

New York State Medicaid Drug Utilization Review Program

Health Insurance
Programs

		Tipranavir (Aptivus) All products containing cobicistat All products containing darunavir All products containing ritonavir
Sildenafil	Revatio dosing only (for PAH)	Atazanavir (Reyataz) Fosamprenavir (Lexiva) Indinavir (Crixivan) Nelfinavir (Viracept) Saquinavir (Invirase) Tipranavir (Aptivus) All products containing cobicistat All products containing darunavir All products containing ritonavir
Colchicine**	Colcrys	Atazanavir (Reyataz) Fosamprenavir (Lexiva) Indinavir (Crixivan) Nelfinavir (Viracept) Saquinavir (Invirase) Tipranavir (Aptivus) All products containing cobicistat All products containing darunavir All products containing ritonavir
Voriconazole	Vfend	Ritonavir (Norvir) ≥ 400 mg twice daily

***NOTE – List of meds in center column is NOT a complete list. Any product containing the active ingredient shown in the first column will be an interaction with the drug in the third column.**

**The contraindications listed with colchicine are for patients with renal or hepatic impairment.

ARV = antiretroviral; HFA = hydrofluoroalkane (propellant); PAH = pulmonary arterial hypertension; POS = point of service

Other ARV/Non-ARV drug-drug interactions not included in this table are managed via severity level 1 DDI conflict codes, requiring pharmacist action at the POS.
