NYS Medicaid Fee-For-Service (FFS) Retroactive Lump Sum Payment for the ATB 1% Increase in Pharmacy Dispensing Fee Payment

As previously communicated via a recent [Pharmacy Communication](#), changes to the Medicaid FFS pharmacy dispensing fee were implemented on September 22, 2022. This reimbursement change was a result of the [1% Across the Board \(ATB\) Medicaid Rate increase](#), effective April 1, 2022.

In order to address retroactive adjustments to the dispensing fees that were paid during the period from April 1, 2022, through September 21, 2022, the Department will process a lump sum payment. The Department expects this lump sum payment to show on the remittance corresponding to cycle payment 2359.

The remittance statement will show this lump sum payment with a Financial Reason Code of LS1.

For remittance questions contact the eMedNY Call Center: **1-800-343-9000**.
